Rothsay Public School's Acceptable Use Policy

Rothsay Public School's Network Use Procedure

New technologies are shifting the ways that information may be accessed, communicated, and transferred. Those changes may also alter instruction and student learning. Rothsay Public School offers students access to the electronic information highway and the Internet.

Along with access to computers and people all over the world comes the availability of materials that may not be considered appropriate in the classroom. However, on a global network it is impossible to control all the materials. Ultimately, the school staff, parents, and guardians of minors are responsible for setting and conveying the standards that the students should follow when using media and information sources. The Rothsay Public School supports and respects each family's right to decide whether or not to allow their child to apply for access to Rothsay Public School's Network.

Rothsay Public School's Use Rules and Responsibilities

The system administrators may close an account at any time. The administration, faculty, and staff of Rothsay Public School may deny, revoke, or suspend specific user accounts.

Individual users of the Rothsay School Network are responsible for their use.
